

Drop-in event Beales Corner Flood Risk Management Scheme

The **Environment Agency** will hold a drop-in event to update residents on the

Beales Corner Flood Risk Management Scheme

The event will be held on:

Tuesday 27 June 2023

12 noon – 7 PM

at

St George's Hall

Load Street, Bewdley

DY12 2EQ

You don't need to pre-book, just drop-in at any time.

At the event we aim to provide the community with the latest information on the scheme following our last engagement event in October 2022.

It also provides an opportunity for community members to raise any further questions about the scheme before the start of construction.

If you can't attend but would like to raise an issue or find out more, please contact us at Environment Agency: BLBFRMS@environment-agency.gov.uk
